PROFESSIONAL SUMMARY

Software engineer with 5+ years of experience delivering production web applications for clients in Bangladesh and Japan, with senior-level responsibilities in leading small development teams, owning system design and code reviews, and migrating legacy platforms to modern stacks. Strong in Laravel, Python, ASP.NET, Angular, and React, with hands-on cloud experience on AWS (Lambda, S3, DynamoDB, CloudFront, CloudWatch, CodeBuild) and GCP (Cloud Run, Cloud SQL, Firestore). Comfortable owning end-to-end delivery from requirements through deployment and post-release support.

PROFESSIONAL EXPERIENCE

Software Engineer

August 2024 – Present

XORGEEK

- **Led** system design, sprint planning, and code reviews for a team of 3 developers, contributing to delivery of multiple client projects for enterprise customers in Japan.
- **Migrated** a legacy Japanese client platform to a modern Python/Angular stack, improving stability and reducing recurring production incidents through refactored core modules and stronger test coverage.
- **Built and maintained** RESTful APIs serving multiple front-end clients, enabling reliable data exchange across web and internal admin systems.
- **Deployed and monitored** production services on AWS using Lambda, S3, CloudFront, and CloudWatch, and on GCP using Cloud Run and Cloud SQL.
- **Authored** technical specifications, API documentation, and onboarding guides to accelerate ramp-up for new team members.

Software Engineer

May 2023 – July 2024

Smart Software Ltd.

- **Designed and delivered** ERP and Management Systems in Laravel for multiple business clients, integrating third-party services for payments, SMS, and reporting.
- **Owned** REST API design and data processing workflows that streamlined day-to-day operations for client teams.
- **Reduced** post-release defects through systematic testing, debugging, and performance tuning of core business logic.
- **Partnered with** stakeholders to gather requirements, refine project scope, and deliver tailored solutions that addressed real business needs.
- **Contributed to** UI/UX decisions and documented project specifications and integration processes to support team knowledge transfer.

Software Engineer (Laravel)

November 2020 – July 2022

Lightbreeze Technologies & Systems

- **Built** custom Laravel e-commerce features including payment gateway integration, product catalog management, and order processing workflows for online stores.
- **Implemented** robust data validation and error handling to maintain transaction integrity and minimize checkout disruptions.
- **Improved** application reliability through rigorous testing and debugging, resolving production issues promptly to maintain a smooth shopping experience.
- **Collaborated** with cross-functional teams on technical guidance, knowledge sharing, and ongoing product maintenance.
- **Maintained** documentation for new features and custom modules to support future scalability and onboarding.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript, TypeScript, C#, C, C++

Frameworks & Libraries: Laravel, ASP.NET, Angular, React.js, jQuery, Bootstrap

Databases: MySQL, Microsoft SQL Server, DynamoDB, Firestore, Entity Framework

AWS: Lambda, S3, DynamoDB, CloudFront, CloudWatch, CodeBuild

GCP: Cloud Run, Cloud SQL, Firestore

Version Control: Git, GitHub, Bitbucket

Tools & Methodologies: Jira, Agile/Scrum, REST API design, Code Review, Unit Testing

EDUCATION

Bachelor of Science in Computer Science and Engineering

2019

American International University-Bangladesh (AIUB)

Higher Secondary Certificate

2014

Savar Cantonment Public School & College
